

# Warning against the efforts of collecting Money from Members

Central Office is trying its best to take all the issues ahead. As we have been saying that in the past, people due to their own petty and selfish interests almost destroyed the case by filing Individual cases by invoking sentiments of people. Particularly in ACP Patna issue, people have collected a huge amount of money by invoking sentiments of the members, while as per our information very less amount of money only spent from the money collected.

These elements misused this and an opportunity for money churning. The ACP had almost become a victim of ill intentions of these selfish people. The issue was discussed in detail in CWC Lucknow and a Resolution is adopted.

The discussion and Resolution on ACP PATNA in CWC Lucknow is given below :

## Generalization Of Patna ACP:

The house was informed that on the persuasion of Central team, MIB asked DG: AIR for sending their proposal towards formulation of screening committee for implementation of ACP to the applicants of Delhi CAT OA 757/2013 and other similar OA as per verdict of CAT Patna OA 514/2002. DG: AIR sent all related documents (APAR, Service record, Vigilance reports) of applicants to MIB for further necessary action. Meanwhile a number of OAs were filed in various CAT branches by approx. 200 odd individuals in spite of appeals by ARTEE not to continue with individual litigation as there is a risk of adverse judgment in any single case which can be used as a pretext by the department for denying Patna ACP for all. Central team was trying to get the Patna ACP implemented to those applicants in OA 757/2013 in CAT Principal Bench, Delhi, who are similarly placed as Patna applicants, so that by showing one example, the verdict can be generalized for the entire cadre. But now the matter is held up in the MIB due to filing of multiple OAs.

President informed that DG:AIR/MIB are thinking of filing fresh writ against the CCPA 22/2011 verdict dated 08.12.2011 i.r.o CAT Patna OA 514/2002. ARTEE Central Office is pursuing the matter in PrasarBharati/DG:AIR regularly and persuading the dept not to go for fresh Writ in Patna case. Draft note for generalization of Patna ACP to also being prepared in Prasar Bharati on the lobbying of ARTEE. After detailed discussion house resolved that

- 1 If anybody files a court case against the direction of Central office which can cause negative impact on the cause or welfare of Members, disciplinary action shall be contemplated on the member.
- 2 If required, Contempt petition shall be filed in OA 757/2012 with the funding from ARTEE.
- 3 Call for sending representation towards generalization of Patna ACP shall again be initiated, as it is putting pressure on the authority.
- 4 If any member collects money in the name of filing Cases, against the directive of Central Office he has to submit an account of the money collected. If Central Office considers accounts are not proper they may ask to refund the money to the members.

Central Office has received information that still some money hungry people are trying to collect money from our members by misguiding them for filing Individual cases for ACP PATNA. We want to warn these people that any such effort shall be treated as the violation of CWC Resolution and against the interest of the Members. And strict disciplinary action shall be contemplated against such people. Members are also cautioned from of such people and inform the Central Office as such efforts may damage the cause.
