

Growing Transfer Related Grievances-A matter of Concern

Central Office is receiving many representations for settling transfer related grievances. We want to remind our members that as per the CCS (RSA) Rules, Service associations cannot take Individual cases. As per the CCS (RSA) Rules, we have only a very little say in Transfers. We can interfere only in cases in which violation of transfer policy took place or in extreme humanitarian grounds only. Undue and beyond limit interference of Associations in transfers was one of the main causes behind the De-Recognition in the past.

We agree that Transfer can never be comfortable for any one, but it is not advisable that we take up unjust cases. We can't allow this situation to go beyond the control once again.

All are suggested to refer the cases of transfer grievances only in which violation of transfer policy took place or in cases in which extreme humanitarian ground exists .And we request not to put pressure on Central Office for transfer related Grievances.
