

Implementation of ACP PATNA about to enter the Final Phase

The implementation of ACP as per CAT PATNA verdict upheld by Hon'ble Supreme Court is progressing satisfactorily. As reported earlier, DG(AIR) wrote separate DO Letters to Zonal ADG(E) of five zones to send data latest by 30.09.2015.

From information received from sources in DG(AIR), there are all possibilities that a DPC may be conducted before 14th Oct 2015 for some cases. Our approach is that any order in any case should be issued so that implementation enters into final phase. This was our stand that any order in any case should be issued.

It is also pertinent to mention that proposal with data in four OAs are already available with DG (AIR) and in these proposals DG(AIR) has clearly mentioned that Appellants of this cases are similar to the Appellants of OA 514/2002 of CAT PATNA. This was also a miles stones achievement of Central Office as the issue of Similarity is first decided in the proposal of OA 757/2013 filed by Umesh Chandra and Ors. in Individual Capacity and later it is followed in 3 other OAs. The Clause three of proposal clearly describes this. We have obtained copy of these proposals through RTI.

The need of the hour is to remain firmly United and don't allow any negative element to spoil the issue.
