Dear VPs,

I am in extreme pain to inform you about the recent moves by a handful of Units with a move not only to disown present body but also to inform Management about their move.

It is like giving a tool to management. it is also against the discipline of the Association and against byelaws also.

I hereby seek your opinion about this move immediately.

Thanks and Best wishes.

to me

As informed by you this kind of move is really an unhealthy one. Disown the present body and informing that to the authority may not become an agenda point of a Unit. However, the Zonal committee never in favour of such move and outcome like this, hence request the Central Executives to take suitable steps to settle the issue amicably.

with best wishes.
