

Submission of Suggestions about Draft RRs

As desired by Prasar Bharati, ARTEE has submitted its suggestions for RR Amendments.

We have tried our best to accommodate maximum suggestions and also the measure to remove acute stagnation in EA, SEA and Other Cadres.

High Light of our proposal:

[1]. Designation of Merged Cadre : Broadcast Engineer

[2]. Designation of Promotional Cadre AE : Senior BROADCAST ENGINEER as proposed in Cadre Review.

[3]. Promotional Channel from Merged Cadre of EA and SEA :

So the promotional channel should be 100% Sr.Cum fitness
or

75% Sr.Cum Fitness and 25% LDCE.

Need to address Accute Stagnation in EA and SEA Cadres

In Cadre Review Exercise an effort was made to address this issue. A provision of total of 3696 posts was made in the promotional cadre of Sr. Broadcast Engineer (Assistant Engineer). We strongly suggest to look into this aspect as it will help in removing stangnation in EA and SEA Cadres. There are EA and SEA who have not even a single promotion after 30+ years of service.

It is pertinent mention that such proposal will not have any financial implication as all SEA and EAs are in higher Scales by virtue of MACP.

When these promotions will take place, it will have cascading effect and it will be helpful in removing stagnation in lower cadres also.

[4]. Elligibiliy service for Promotion from Merged Cadre:

The elligibility service should be kept **8 years** as it is at present in place of **5 years** as proposed.

[5]. The Applicability of Merger :

Merger should be effective **w.e.f. 01.01.2006** as the merger is done as per DoEXP OM dated 13.11.2009 which is effective from 01.01.2006.

[6]. No use of word UPGRADATION as scales are REPLACEMENT SCALES :

So we strongly oppose the use of word Upgradation and it should be **REPLACEMENT SCALES** as per speaking order of Prasar Bharati.

[7]. 5400 GP PB III for AEs on Completion of 4 years :

It should be 5400 PB III as proposed in 6th CPC Recommendations.

Additional Suggestions :

Merger of Tech/Sr.Tech in pre revised scale of 5000-8000 i.e. GP 4200 :

Merger of Tech with Sr.Tech in GP 4200 with designation Jr. Broadcast Engineer should be done as per proposal sent by DG(AIR).

[ARTEE Suggestions for RR Amendments](#)
