

# Congratulations

Today must be a historic day for all Tech(4K) joined between 25/02/99 - 05/12/2007 in 4000-6000 Pay Scale and in the list of achievements by ARTEE in present CWC term. The issue of 16 yrs is solved and now DG(AIR) will issue orders for implementation.

We think the turning point in this issue was the clear and favorable Advise by Department of Legal Affairs. It was done only by the efforts of your beloved ARTEE and this is the reason that Hon'ble MIB has attached the copy of Advise with the Order. The clauses 14 of advice clearly instruct to implement the order with all consequential benefits.

On the basis of this advise the Department submitted an Affidavit in Hon'ble CAT in which they conveyed their consent for the implementation even before the disposal of our case OA 1575/2015. This is also happened for the first time.

In the process the most difficult task was to justify the consequential benefits because some of Tech(4K) got the scale of 4500-6000 Notionally as per DG(AIR) Order in Notional Fixation Case. This was also done through the Advise of Department of Legal Affairs. In all probabilities the DOLA advice has played a key role and it is only pursued by your beloved ARTEE.

So right now it is celebration time as we are just one step away from our final destination.
