

Warning Against Participation in Current Agitation by NFADE

Central Office is receiving the information that some Members are spreading the misinformation that ARTEE is also part of present agitation by NFADE.

It is pertinent to mention that through the letter dated 31.10.2016 to Hon'ble Minister I & B and all other authorities, ARTEE had made it clear that we are not a constituent of NFADE.

We are also viewing it seriously that a handful of Members of this Association are violating ARTEE's official stand by participating in this Agitation. This is clearly an Anti Association Activity.

We also viewed seriously the behaviour of some Members with the leadership on 07.11.16 when these Members came to meet leaders to express their concern. It was the modesty of Central Office that they met these Members even when they came to Delhi violating the call of ARTEE. But some Ex leaders and Members insulted the leadership with their aggressive posture and behaviour which can not be allowed.

So in the light of further calls of the current agitation by NFADE, all Members are here by informed that since we are not a part of NFADE, if any Member of ARTEE takes part in any of the step of Agitation, it will be treated as an Anti Association activity and strict disciplinary action will be contemplated against such Members.
