

The thinking of a true and dedicated ARTEEian Sh. M.K.Thakuri, SEA, LPT Darjeeling in Social Media on acts of some Ex.leaders.

First Post

[25/03, 11:13 PM] Mani Thakuri: My opinion is that if the leaders can't do their job honestly, they can be replaced by election but forming another association is a great insult to the dream, vision & sacrifice of our Founder Members. I am dead against it & strongly condemn to such idea of division of 50 years old association because my conscience as a grass root member thinks that Diveded we fall, United we stand as taught by our leaders. What about the Slogans of our leaders, "Long Live ARTEE, Long Live Unity" ? - M.K.Thakuri, ARTEE Unit, LPT Darjeeling

Second Post

[27/03, 02:59 PM] Mani Thakuri: As a True Arteeiens I feel proud to express that I blame No Body have sympathy & pity for leaving us...yes misunderstandings can happen in any Organisation & also there is always a possible solution through a peaceful dialogue but not by leaving the field cowardly. Only losers can leave...! The idea of bifurcation of 50 Yrs. old association reminds me a story of Kalidas. The principle of a true democratic mind is resignation as a protest of complaint in any organization (political or apolitical) & its only solution is Election for new office bearers but never a division. The leaders of Zonal & Central have forgotten that they are trusted representatives as elected by many grass root members who not only serve the Kendras in Cities & Towns but also in remote Kendras. Before election, the so called leaders only talked about Unity & Welfares, so, we trusted them & elected as our leaders. OMG, now, "How can they talk about this non-sense of division, ?" Our right to vote we made them leaders, now as our right to express we ask them, "Why the opinion from each grass -root member was not sough before forming another association & its purpose & necessity,?" This idea of madness only made bureaucrats happy & gave them a reason to laugh at us. ...! Finally, cutting a weak branch of 50 yrs. old matured Tree (symbol of love, identity & unity of our farsighted beloved Founder Members & those true leaders who sacrificed their lives for the welfare and common goals) is like taking a single drop of water from the Ocean...! Long Live ARTEE Long Live Unity.....!

M.K.Thakuri ARTEE Unit LPT Darjeeling.

Thakuri Ji, We in Central Office of ARTEE are thankful that you have shown mirror to many.
