

Our Views on Recent OM by DG (AIR)

On 22.09.2017, DG AIR issued a derogatory OM dated 21.09.2017 for “Not to entertain representation received from Association of Prasar Bharati/AIR on Association letter head”. This order is against the law of natural justice which our constitution provides us. If Recognition is under Re Verification, it does not mean that all voices of employees should be silent. In a country where right of expression is a fundamental right such orders are against the law of the land.

Some crazy people who don't even understand the seriousness of the issue are celebrating this latest negative OM , but they are so foolish to realize that they are also affected by this order as an implication of this order their Association also will not be in a position to write those Novel type letters which have been main cause of this action by management. As per our information on such a novel type representation few weeks back, DG (AIR) asked about the existence of that Association. As usual section gave a negative feed back.

In our opinion such novel type useless letters paved the way for the issuance of this letter which snatched right of using the letter head from all Associations of AIR & DD. This is the repetition of same sequence of events which lead to the issuance of the order placing the Recognition of all recognised Associations in abeyance. Ultimately their negative acts are proving very costly for the cause of welfare and for the voice of Employees. They have become “bhasmasur” of our department

We have a firm belief that having negative intentions in mind nothing positive can be achieved. It is better that they learn a lesson that what could be the consequences of giving a blank cheque to Management to act against genuine interests and welfare of employees.

It is to be noted whatever they are saying is proving false. Earlier they were propagating that we will never conduct elections ... Now our election of office bearers for the CWC term 2017-19 is being conducted successfully. They propagated that Prasar Bharati will not appoint Observer for our Election But Prasar Bharati appointed Observer for our Election. They tried to stop our Elections but failed. They asked Members not to vote, but they failed.

Their organisation is disintegrating day by day as members are losing faith after realizing the Truth.... Majority of Prasar Bharati Employees who joined with them promises feeling cheated on false promises. Today all Associations are against them and they are becoming route cause of all Anti Employees and Anti Welfare work.

Last week they celebrated a negative clarification. They even claimed the credit of 100 FM Stations and made themselves a laughing stock. They have become habitual of claiming credit of almost every thing happening whether it is damaging or negative.

We in ARTEE are fully aware about the consequences and will take immediate remedial measures in consultation with other Associations who are also feeling similar anguish against these miscreants.
