

Important update on Progress of Re Verification for RSA Recognition

We are trying to get Recognition Renewed as per RSA Rules. Surprisingly, the group, which is responsible for today's pathetic situation of snatching Employee's voice, is blaming us for slow progress of Recognition process. We would like to enlighten them that the process in 2011 took two years and at that they were themselves handling this.

ARTEE understands its responsibility as the largest Association and we are keenly following the procedure.

After the submission of Applications for Recognition up to 10th Jan'18, all Applications were scrutinized in DG(AIR). After scrutiny some Applications were not found in order and there were some shortcomings. DG(AIR) has sent a status report to Prasar Bharati mentioning these shortcomings.

Last Monday i.e. on 26/03/18, a meeting was held in Prasar Bharati under the Chairmanship of CEO to monitor the progress of Recognition process. Meeting was attended by both the ADG (A)s of AIR & DD. It is decided to issue letters to Associations whose Applications are not complete and to ask them to complete the shortcomings in a stipulated time. Prasar Bharati likely to issue letters with this intent to DG. After this DGs will issue letters to Associations. After this further decision of RSA deductions etc may be taken.

We are not drum beaters and social abusers who remain in search of opportunity to spread filth and dirt everywhere and always try to take credit of other's hard work and success. The process of Recognition will make all the illusions clear from such minds.

Destroyers of Unity are bound to bite dust for sure
